Four automobiles of golf players from the Meadow Brook club of Barre came over to compete against the locals, and the visitors had all the best of the show. Their drives and iron shots reminded the home boys that they had something to learn about the game, and they did learn considerable through the courtesy of the Barre players. A few of the local boys played their opponents a fairly close game, but a majority of the individual matches were one-sided. The Barre golfers were free with their praise of the local grounds, and when the greens, which have been in use only this year, are in better condition, it will be a fine course. ## Everything Ready for Your Fall and Winter Shopping!

We are so well pleased with our assortment that we know you will be. Considering the market our assortment is exceptional. We will have more than the usual amount of compliments this season. Very hard to describe all of these new things. If you are not ready to buy you should do a little of your looking around early in the season.

YOUR CORSETS ARE THE FOUNDATION OF YOUR DRESS APPEARANCE. They should be selected before you are fitted to your new fall costumes. What make of Corsets are you to buy?

## R. &amp; G. Corsets

Some prefer the Lace Front, others the hook style. Both have the same body lines.

R. & G. Corsets are all of them steam moulded. They feel different. They are softer and hold their shape better.

Lady Ruth Lace Front Corsets that have taken the trade in large cities are the same forms as the R. & G. Corsets, made by them in same forms that fit so well.

If you are a wearer of R. & G. Corsets, no other make will ever quite suit you. Styles from \$1.00 up to \$5.00 per pair.

R. & G. School Girl Corsets are a great addition to the line. Young ladies want a Corset made for them, not one made for their mothers. Here they have it, at only \$1.00 per pair. Just what the young lady wants.

DE BEVOISE BRASSIERES are the kinds that have values that other manufacturers would like to have. It's the best assortment on the market. More for your money.

## Our Corset Kinds

are Royal Worcester, R. & G. and Nemo Corsets, Fern Waists and De Bevoise Brassieres. If there are other kinds as good as the five makes, we don't know it.

Ferris Waists are the standard Waist of this country. De Bevoise Brassieres are the kind that others try to imitate. R. & G. Corsets are in a class by themselves. Royal Worcester Corsets are the kind that have outdone all foreign makes.

Nemo Corsets would not have the largest Corset sales in America if they were not of a special design.

Nemo Corsets were designed by doctors as a help to correct the health of every wearer. Their sale will prove that they have fulfilled their design. They are a wonderful Corset. One pair will prove to you their object.

None too early to select your Fall Millinery. We were never so busy at this time of the year before. A large assortment at Dry Goods profits. Can save a little as you purchase.

Rosh Ha Shana, the opening of the Jewish new year on the religious calendar, begins to-morrow, and in common with orthodox Hebrews throughout the world, believers in Barre will observe the occasion. It is observed not as a civil, but as a religious festival. For commercial purposes, adherents of the Jewish faith use the civil calendar of all commercial business, but their feasts and fasts are dated according to the moon. The day begins at sunset, traditionally so by the biblical story of creation, in which the evening is mentioned before the morning. The year is 5678, counting from the time which tradition fixes as the creation of the world. The chief rite is the blowing of the trumpet or ram's horn. Local Hebrews expect to pass a part of the new year season at Burlington, where the services of a rabbi are available.

## AMUSEMENT NOTES.

A Farcial Riot is the Way "Nothing But the Truth" is Described.

"Nothing But the Truth," which is to be seen here at the opera house for one night next Tuesday, Sept. 18, is best described as simply a farcial riot. To try to temper the description of this wonderful play by James Montgomery, which is being presented by Messrs. Anderson and Weber after a solid season at the Longacre theatre in New York, would be doing an injustice to the New York critics who unanimously hailed the piece as the season's finest farce.

To try to prove that he was right in his assertion that he could do something which, at its face value, appeared easy, without wavering from a set course, the hero wagers the sum of \$10,000. The mischief resulting in the disrupting of the domestic relations of his partner, the avowal of his fiancée that she will break her engagement, a rumor sent flying around Wall street, the loss of several reputations and numerous other situations, which serve to keep the audience in a continual fit of laughter, all combine to make a vehicle splendidly equipped for laughing purposes only—adv.

An Artist-Observer Depicts Air Battle Over London.

An excursion to "Somewhere in the Atlantic" aboard Uncle Sam's new navy is scheduled to take place at the opera house on Thursday, Sept. 20, via "Howe's Special"—otherwise known as Lyman H. Howe's Travel Festival. Here the audience forms a close-up acquaintance with the monster guns of our super-dreadnoughts which hurl 1400 pounds of projectiles 25 miles. Aside from the many spectacular phases and absorbing interest of the film in its entirety, it conveys a vast fund of information of our sentiments of the deep which every American should know. There is something irresistibly fascinating about super-dreadnoughts and the life of the human element in command.

Still another subject depicts in "trick" photography an imaginary battle in the air over London between a Zeppelin and intrepid British airman who finally defeats the enemy by manoeuvring until he attains a position directly above the "Zep" and then ends the career of its mission by dropping a bomb on it. The skill and daring of cowboys and cowgirls during hair-raising bronco-breaking contests, climbing Mt. Blanc, the highest mountain in the Alps, and a ride through the Cascade mountains via the Great Northern railway are
